SETTING STANDARDS

Starship-inspired design reflects XPENG's vision to not only push the boundaries of innovation, but commitment to blending technological sophistication with modern aesthetics.

The bold robotic face is framed by the full-width integrated light bar for a futuristic presence, plus the fastback silhouette with long front overhang, short rear overhand, and clean side sculpting delivers coupe-like dynamism.

ALL WHEEL DRIVE (AWD) PERFORMANCE

New for 2026, the AWD Performance variant comes with all Long Range features but with improved performance, accelerating from 0-62mph in just 4.13 seconds.

AWD Performance is available exclusively in Black Edition styling, featuring Black 20" alloys and Smoked Grey Badging.

EXTERIOR DESIGN

Starship-inspired design reflects XPENG's vision to not only push the boundaries of innovation, but commitment to blending technological sophistication with modern aesthetics.

The bold robotic face is framed by the full-width integrated light bar for a futuristic presence, plus the fastback silhouette with long front overhang, short rear overhand, and clean side sculpting delivers coupe-like dynamism.

COLOURS COME AT AN ADDITIONAL COST

ARCTIC WHITE

SILVER FROST

GRAPHITE GREY

MIDNIGHT BLACK

STELLAR PURPLE

BLACK EDITION

EXCLUSIVE PERFORMANCE
STYLING WITH BLACK ALLOYS
& SMOKED GREY BADGING

SUSPENDED ROOF

The suspended roof enhances the car's dynamic, forward-thinking stance while allowing for a more spacious, airy feel inside. It provides exceptional headroom for both front and rear passengers, merging stylish sophistication with practicality for a more comfortable and open driving experience.

FRAMELESS DOOR & HIDDEN DOOR HANDLE

Frameless doors eliminate obstructions, offering a clearer view and reducing blind spots near the A-pillar, so you can enjoy a more open, unobstructed driving experience.

LED SPOILER

Aerodynamic spoiler with suspended light bar enhances both form and airflow control.

INTERIOR DESIGN

Dark Grey and Light
Grey interior options*

Nebula-Inspired Cabin Architecture, ambient starlight accents & wood grain dashboard design, and layered geometric trim evoke a futuristic, immersive space.

Enjoy exceptional comfort. With the refined leatherette-covered seats in the Standard Range, and Nappa Leather in Long Range & AWD Performance.

Full-View Streaming Media Rearview Mirror LR & AWD Performance only.

*AWD Performance model only
available in Dark Grey

EXCELLENCE DEFINING FEATURES

XPENG is driven by a commitment to smart mobility, seamlessly blending advanced technology with everyday usability. The G6 is built to enhance every journey through intelligent systems engineered for precision, comfort and connectivity,

01

XPILOT ASSIST*

Powered by an Intelligent driving chip single Orin, XPILOT ASSIST enhances driving, parking and safety. Benefit from Adaptive Cruise Control, Adaptive Turning Cruise and Auto Lane Change; Enhanced Automatic Parking Assistance with remote parking for difficult spaces, 360 degree camera with transparent chassis; plus, forward, side and rear collision prevention.

02

Over-the-air (OTA) software updates

Your new car keeps getting smarter, with continuous over the air updates designed to improve both your driving experience and efficiency of the vehicles.

03

XPENG App

Remote control your G6 from the XPENG App, with forward and reverse vehicle summoning. Plus handy convenience features such as remote lock/unlock, climate control, ability to sound the horn and flash lights and monitor and schedule charging status .

04

Full-Stack Lofic Architecture

Equipped with a front binocular camera and rearview camera, the XPENG Full-Stack Lofic Architecture enhances environmental perception across a wide range of driving scenarios, adapting seamlessly to both light and dark conditions. All while acting as a dashcam for added security.

05

Industry-Leading Sensor Suite

Visual perception range extended by 125% compared to the previous generation, with the ability to recognise and distinguish 49 types of obstacles—both dynamic and static—with precision.

06

Pet Mode

Keep your furry friends safe and comfortable while you're away from your vehicle. With a message displayed on the centre console to inform passersby's that they're being taken care of.

07

Seamless Entry

Using the UWB ultra-wideband smart remote control key, NFC card Key or Automatic Mobile Phone unlocking.

*Features and equipment may vary depending on vehicle specification.

08

BATTERY AND POWERTRAIN

Feature advanced lithium-ion phosphate battery systems that ensure efficiency, longevity, and power. The batteries are optimized for maximum energy density and performance with triple-layer battery shield, 4-3-4 design which enhances resistance to impact, fire and thermal runaway.

The G6's powerful electric motor provides smooth acceleration and responsive handling, available in rear-wheel drive (RWD) in Standard Range and Long Range or all-wheel drive (AWD) Performance.

09

ELECTRIC EFFICIENCY

Regenerative Braking: The G6 features regenerative braking, which helps recover energy during braking, improving overall efficiency and extending the vehicle's range.

Zero Emissions: As a fully electric vehicle, the G6 produces no tailpipe emissions, contributing to a cleaner environment.

10

SUSPENSION

Front Double-Wishbone & Rear Five Link Independent Suspension Setup Controls full directional movement of each individual wheel for a smooth ride and agile handling with reduced road vibration.

11

10-80% RAPID CHARGE IN 12 MINUTES

Max 451kW charging capacity. XPENG G6 is not just built for today's generation of chargers, but the next. 5C Supercharging Battery developed on Full-Domain 800V High Voltage SiC Platform, with advanced XHP 3.0 thermal Management.

SMART CABIN EXPERIENCE

Full-Car Voice Activation: Fast, multi-zone voice control across cockpit functions — even from the rear seats.

Adaptive Scene Intelligence: Supports customisable in-car scene modes with continuous OTA updates that evolve with your preferences.

9 inch, full view streaming media rearview mirror: available in Long Range and Performance.

Built in Dashcam*: The vehicles parking and sentry cameras act as a dashcam.

*Long Range and Performance models only

18-SPEAKER XOPERA SOUND SYSTEM

All 18 speakers (including 2 driver seat stereos) are equipped with the Xopera sound system, which has been masterfully tuned, 7.1.4 panoramic effective technology, and self-developed acoustic algorithms to create mind-blowing sound effects.

01

Three-layer composite paper cone speakers

- “Sandwich” structure, paper + EPP + paper, the upper layer of high-end materials has beautiful appearance and texture; the middle layer of EPP material is lightweight, good damping; the bottom layer of composite pulp has a high degree of rigidity, solid support.
- Effectively ensure that the bass is elastic, deeper and more infectious sound.

02

KEVLAR diaphragm speaker

- Bulletproof fiber material, outstanding transient response; tone is more fluid, natural, and layered. Ideal for fast-paced songs with rapid and frequent changes in tone and volume.

03

Titanium membrane speaker

- Fine and transparent treble, good metallic performance, clear tone, especially in the appreciation of symphonic music and pop tunes, the effect is better.

04

Spatial sound 2.0, building the cockpit surround sound effect

- Based on the theory of psychoacoustic binaural localization of the sound source, the position and orientation of each speaker are optimized to broaden the sound's width.
- Each occupant of the vehicle can feel the “emperor position” of listening delight thanks to the 7.1.4 panoramic sound effect technology, which increases the degree of music extension and thus the sound field.

05

Lossless restoration algorithms for the highest possible quality of any type of music

- Repairing lossy music with the player's low bit rate to achieve lossless-like sound quality, which can improve the sound quality of digitally compressed audio.
- The vehicle reproduces the original sound by compensating the sound field and recovering the high-frequency sound, allowing every type of regular music to be delivered in flawlessincreases the degree of music extension and thus the sound field.

06

Vocal beautification algorithms, as if you were listening live

- Improved some of the vocal overtones for a more genuine and intimate sound signature.
- A more immersive vocal image and richer vocal expression without distorting the sound.

12 - way power adjustable driver seat

Featuring industry-leading intelligent comfort configurations, including 8-way power adjustment + 4-way lumbar support, multi-directional tensile surfaces to fit ergonomic curves. Enjoy heated and ventilated seats as standard, Long Range and Performance come with massage functions.

6 - way power adjustable passenger seat

Treat your driving companions to ultimate comfort with heated and ventilated seats as standard, plus massage functions available in Long Range and Performance.

12 - position backrest adjustable rear seat

Comes with the ability to tilt and recline, the backrest can be adjusted from 27° to 38.4°, offering 12 manual adjustment options. Whether you're seating family or friends, the rear seats can be tailored to provide the ideal position for relaxation, with the flexibility to lie back or sit upright for maximum enjoyment.

VERSATILE STORAGE SOLUTIONS

571L (1374L with rear seats folded) rear trunk + center console with underfloor stowage for everyday utility.

Steering Wheel Functions

Four-way adjustable heated leather steering wheel as standard.

Quickly access frequently used features including auto-parking and cruise control from the customisable button on the steering wheel.

The scroll control on the left spoke enables raising or lowering the temperature, and engages the air-con automatically if off. You can also control air flow without touching the screen.

Navigate back from Apple CarPlay or Android Auto to the XPENG dashboard with the back button, as well as activating voice control and controlling volume.

DIGITAL SCREENS

Boasting a 15.6 inch, floating design central control screen and 10.25 inch digital dashboard.

VEHICLE WARRANTY

Vehicle
5-Year / 75,000
Mile Warranty

Drive confidently knowing you're backed by a robust manufacturer warranty that covers your vehicle for five years or up to 75,000 miles - whichever comes first. It's our promise of quality and reliability.

Battery
8-Year / 100,000
Mile Warranty

Hit the road with confidence, knowing your battery is protected by an eight-year or 100,000-mile warranty - whichever comes first. This coverage reflects our commitment to advanced technology, long-term performance, and the dependable quality you expect from XPENG.

Body
12-Year / Unlimited
Mileage Warranty

Our 12-year, unlimited mileage anti-corrosion warranty protects against corrosion and perforation, ensuring long-term durability. It's part of our commitment to quality and reliability - so you can focus on the road ahead, not what's under the surface.

Service Intervals
1-Year / 12,500
Miles

Keep your XPENG performing at its peak with routine servicing recommended every 12,500 miles or one year - whichever comes first. Regular maintenance helps ensure long-lasting reliability and the smooth, worry-free driving experience you expect.
